IMPORTANT FACTS ABOUT BAHRAIN

1. Bahrain is situated at latitude 26° North and longitude (50°, 45', 50.5'') East of greenwich. It is 15 and 18 Miles from Saudi Arabia and Qater respectively.
2. Bahrain total area is 669 Square Kilometers.
3. The Al-Khalifa ruled Bahrain since 1766.
4. The first Primary School for Boys was started in 1919.
5. The first Primary Shool for girls was started in 1928.
6. Bahrain has been an Oil Producing Country since 1932.
7. Bahrain Refinery was started in 1936.
8. The first Population Census was taken in 1941.
9. Isa Town foundations were first laid in 1963 and first occupied in 1968.
10. Exchange Unit (Rupee) was replaced by Bahrain's Dinar in 1965.
11. Bahrain gained independence on 14.8.1971 and became a Constitutional State in December 1973.
12. Bahrain was admitted to the Arab League in Sep. 11, 1971.
13. Bahrain gained Membership in the United Nations in 1971.
14. Bahrain's total Population in 1971 Census was found to be 216078 of which 37,885 were Non-Bahrainis.
15. Agriculture is considered to be one of the oldest Occupations among Bahrain Nationals. The most common agricultural activities are Vegetables and date palm production.
16. The first hospital constructed in Bahrain was in the year 1900 and was called Victoria Hospital.

DEFINITIONS OF NATIONAL ADDRESSING PROJECT:

The State of Bahrain has been divided into eleven geographical regions, each of which has been assigned a Code Number called a (KEY) for that region. This "KEY" number assigned are as listed below :

Hidd (1), Muharraq (2), Manama (3), Jiddhats (4), North Region (5), Sitra (6), Cental Region (7), Isa Town (8), Riffa (9), Western Region (10), and Howar islands (11).

Each of the eleven geographical region has been divided into many blocks, serially numbered as 01, 02, 03, ... 10, 11, ... etc.

To further identify every block by the geographical region to which it belongs, the Key of that region is prefixed to the block number. **For Instance :**

Block number 206 is situated in Muharraq city because the first digit "2" represents Muharraq region.

Block 320 is situated in Manama because the first digit 3 represent Manama region.

A BLOCK : A block is defined as a group of houses, shops, roads and lanes surrounded by avenues.

CLASSIFICATION OF STREET (General Terms) :

- 1) *Highway* : Surround the geographical region OR connects two or more Cities or Towns.
- 2) *Avenue* : Surrounds a block or is a major commercial centre in the Town or City.
- 3) *Road* : Is located in a block with average width not less than 12 feet and of primary importance to the avenue.
- 4) *Lane* : Small pathway or alley with average width less than 12 feet.

To identify every road with the block containing it we prefix road or lane No. by the corresponding block number. e.g. Road 09 in block 206 will be identified by a number 609. So the number 1312 will denote road number 12 in block 13.

Following the above explained system of addressing every residence or establishment in Bahrain will be identified by the structure number, avenue or road or lane name or number, geographical region and the block number.

The following is a list of selective addresses :

95 Shaikh Isa Avenue Manama 305 Bahrain	70 Avenue No. 14 Manama 314 Bahrain	877 Lane No. 824 Manama 308 Bahrain
---	---	---

HOW TO USE THIS MAP

There are four types of numbers written on this map as a reference to the blocks, avenues, roads and lanes.

- Big numbers (in Arabic only) which are written in blue are the block numbers and they are surrounded by avenues in red.
- Red represents avenues, and are marked clearly with either names or numbers for those avenues.
- Numbers written on the roads, indicated by orange colour, are for the roads. For those roads with names instead of numbers, the names are clearly marked.

To use the map we first refer to the index to find the key number of avenue, road or lane which will be referenced by alphanumeric co-ordinates at the top and edge of the map.
